

Anaconda installation instruction (Windows)

1. Enter the website: anaconda.com
2. At “Anaconda Distribution” Choose “Download Now”

3. Click “Download”

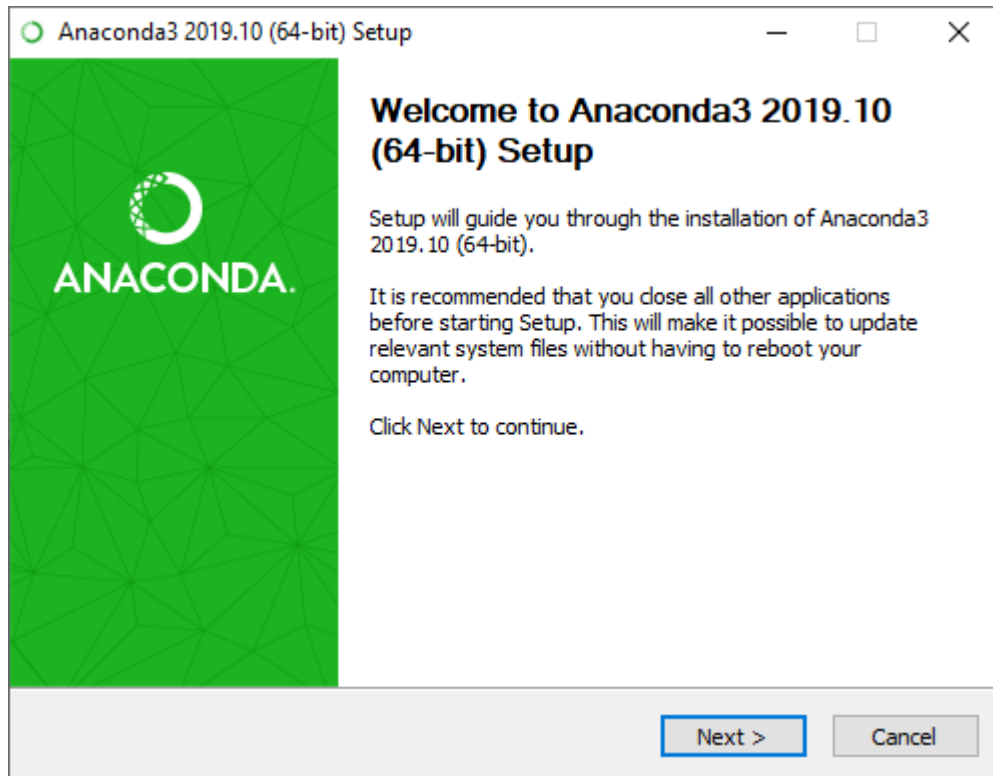

4. Click “Download” under “Python 3.7 version”. If you are not using Windows choose your operating system first. You need to download over 400 GB, so it may take a while.

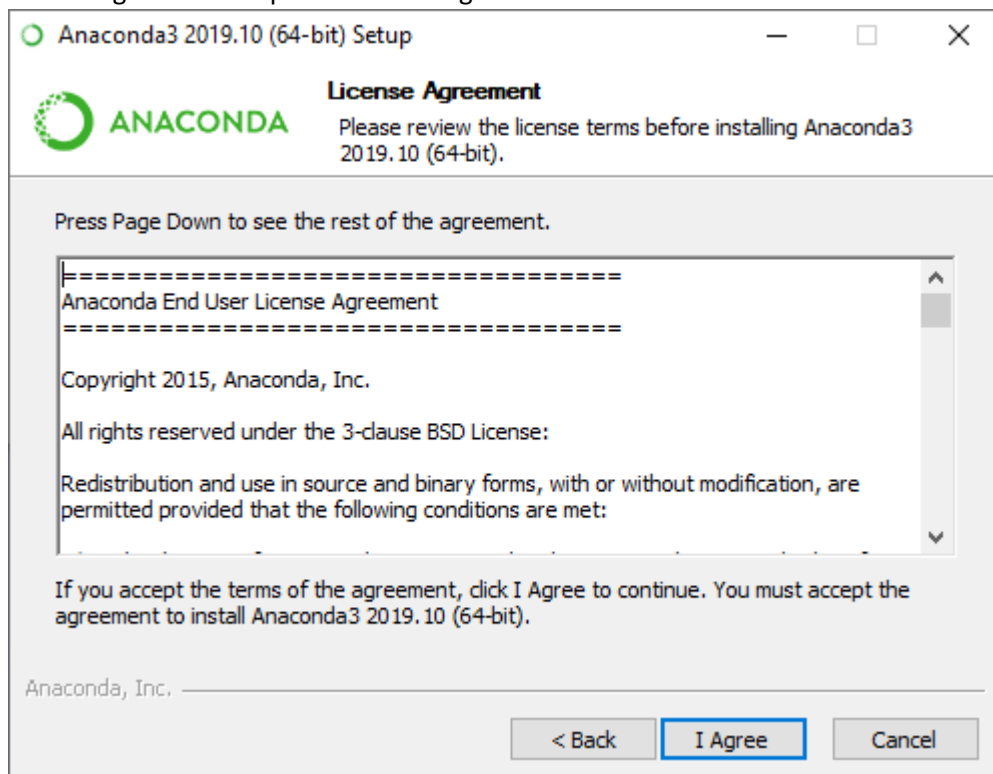

5. Run the file that you downloaded.

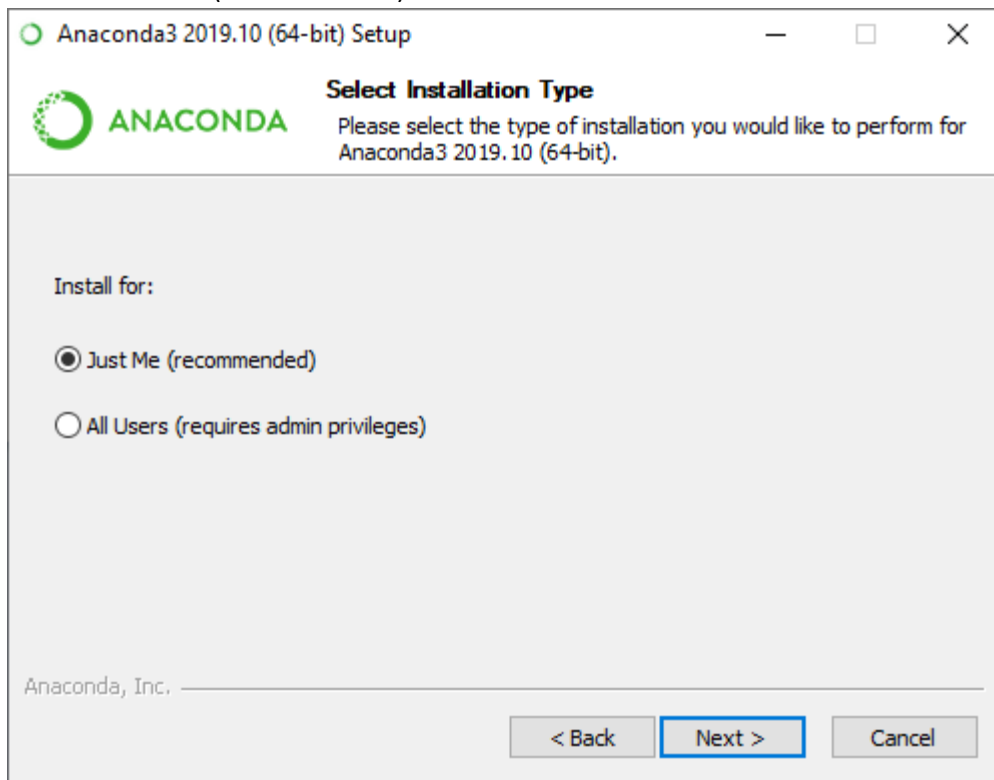

6. Click "Next".

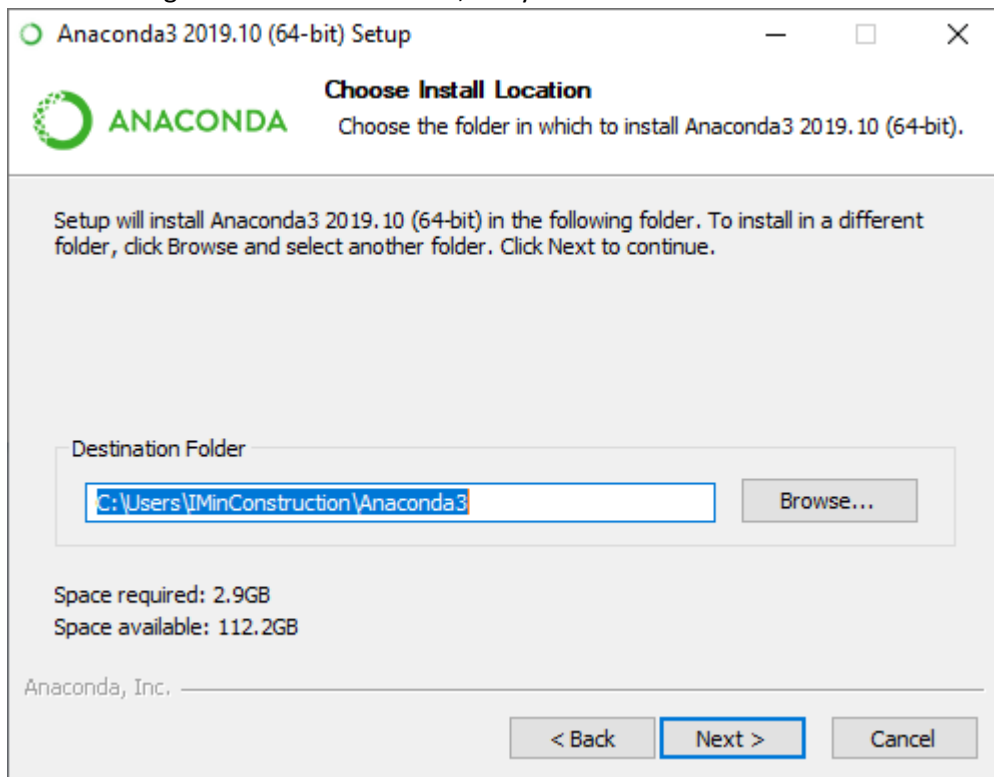

7. Click "I Agree" to accept the License Agreement.

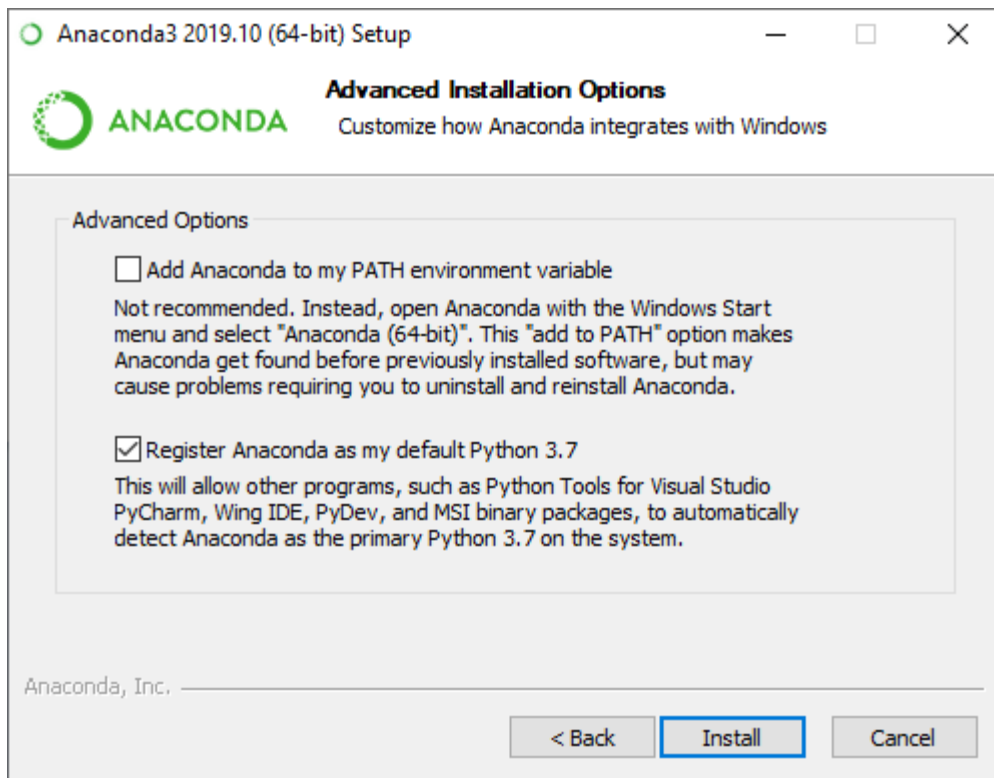

8. Choose “Just Me (recommended)” and click “Next”.

9. You can change the destination folder, but you do not have to. Just click “Next”.

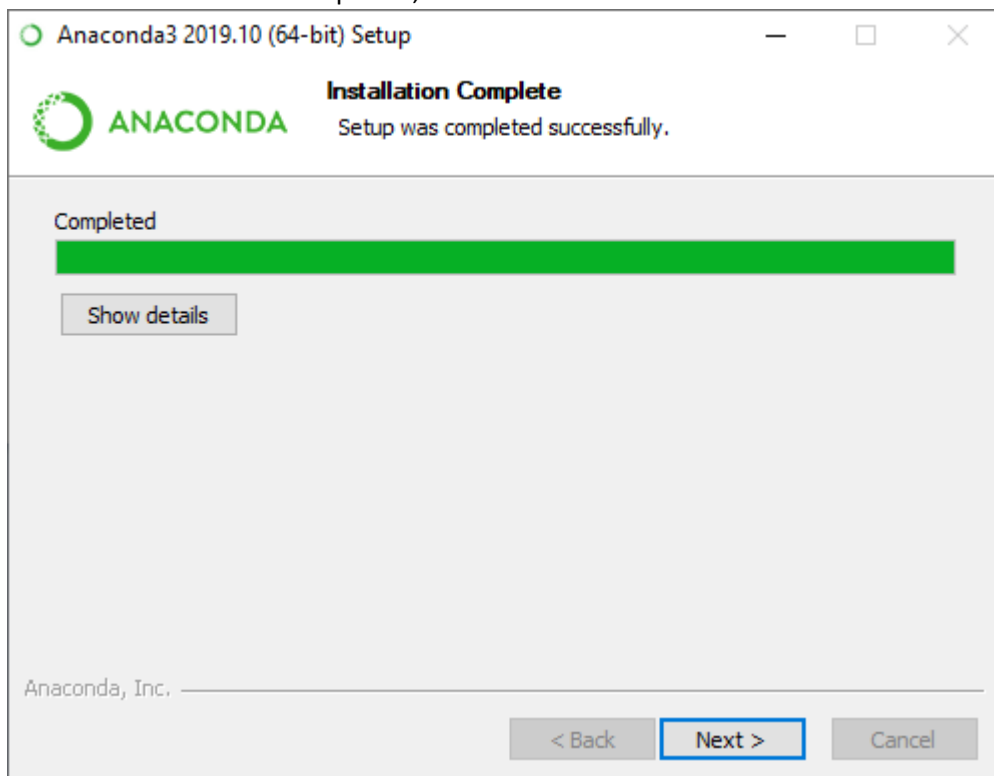

10. Leave the first checkbox unchecked and the second one checked. Click “Install”

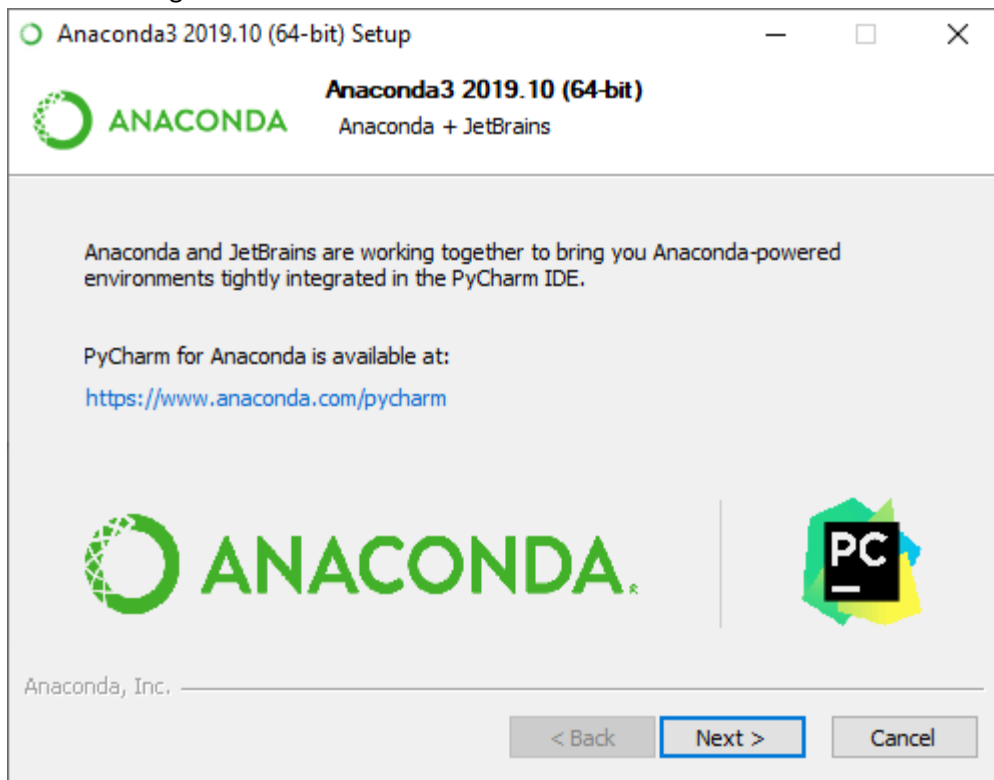

The installation may take a while.

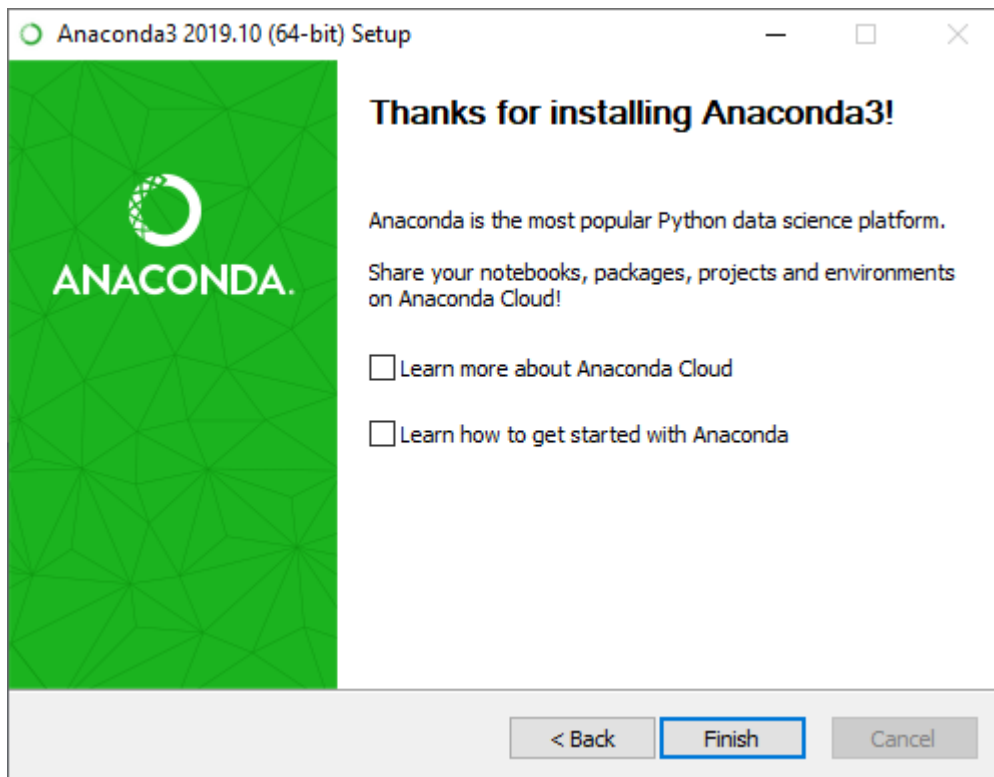

11. After the installation is completed, click “Next”.

12. Click “Next” again.

13. Uncheck the checkboxes and click “Finish”.

Congratulations. You have successfully installed Anaconda!
